

End of Life Notification – HOD Series Products

Dear Valued Customer,

We would like to inform you that the following Aerobits part numbers, purchased within the past three years, have entered the End of Life (EOL) phase. End of Life (EOL) refers to the planned discontinuation of a product due to reasons such as market evolution, technological advancements, or internal development strategies. This decision follows a series of milestones leading to the product's obsolescence. As part of this process, a Last Time Buy (LTB) date has been established. After this date, it will no longer be possible to place orders for the affected items. Orders placed before the LTB date will be fulfilled as inventory permits. We appreciate your continued trust in Aerobits products and apologize for any inconvenience.

If you are interested in licensing or OEM manufacturing options, please contact our sales team at: sales@aerobits.pl

Part Number	Status	LTB Date	EOL Date
HOD_V2	Obsolete	30/06/2026	31/12/2026
